UEL W. LAMKIN, LL. D.
President of the Northwest Missouri State Teachers College, Maryville, Missouri.

To the 1930 High School Graduates of Northwest Missouri

The President and Faculty of the College wish to congratulate you upon your successful completion of your high school course.—An invitation is hereby extended to you to visit the College here at Maryville, Missouri, and see your College, its campus, and buildings, if you have not already done so.

The administrative officers or members of the Faculty shall indeed be glad to try to answer your inquiries concerning the College or to send you bulletins or other literature pertaining to the courses offered.

You are cordially invited to attend College here this fall. Registration day is Tuesday, September 9.

For more information you may write to Uel W. Lamkin, President of the College.

Graduates Are Urged to Attend College

To High School Graduates:
In less than a month, if you have not already attended college, you will have to answer for yourself the question—"After high school, what?" Your recent high school graduation is a memorable milestone in your life. It marks a period of worthy attainment, and we of this College extend to you our sincere congratulations.

High school commencement, in addition to recognizing past achievement, marks plainly for you the possibility of a future far more successful than your past years. A life of success, service, and happiness awaits you if you seek it with serious purpose, determination, and hard work. The world needs men and women qualified to hold the big jobs, the positions of leadership.

The twentieth century demands college training to enable you to make the

Residence Hall

Residence Hall is the home of many College girls. The girls live two in a room and they have individual study desks, beds, showers, and other room furnishings. On the first floor of the Hall is a large, artistically-arranged parlor. The parlor has a cozy fire-place in the east side and the floor is kept in condition so that those girls who care to, may dance for a few minutes in the evenings after dinner. On the lower floor of the building in the south side is found the practice rooms for the music department of the College. Here are found a dozen or more pianos in individual practice rooms. In the north side of the building on this same floor is found the College cafeteria where the girls who stay at the Hall dine, and where several hundred students, teachers, and others take their meals each day.

Residence Hall is under the direction of Miss Helen C. Gwin, A. B., M. A. Girls who desire to stay at Residence Hall should send in a five dollar reservation fee to Mr. W. A. Rickenbrode, business manager of the College. A regular catalog of the College which will tell about the Hall, and give other information about the College, will be sent to those who will write to Miss Nell Hudson, Registrar of the College, for one.

best of your opportunities. Your chances for success are a hundred to one greater if you are equipped with a college education. A college graduate has one chance in 171 of becoming noted; a high school graduate, one in 1,606. Sixty-seven per cent of the men listed in "Who's Who" are college graduates. The average college graduate during his years from 22 to 60 will earn \$150,000; the high school graduate from 18 to 60 will earn \$78,000.

The value of the smaller institutions for at least the first two years of college is well recognized. The presidents of the bigger universities join others in advising students to complete their sophomore work before entering the university. If you desire to teach, this college offers you a full four-year course which cannot be excelled anywhere. If you want a standard Bachelor of Arts degree, this college presents equal advantages with other standard institutions. If you expect to enter a profession other than teaching, you can get your first two years of pre-professional work—fully recognized hour for hour by the best universities—at this college.

Perhaps someone will have to make sacrifices to send you. No college offers more for the necessary cost than we do. The annual expenditure can be kept low and still you can do the things college students should do.

Before finally deciding what you will do next year, we hope you will consider the advantages offered by the college which belongs to the people of Northwest Missouri. The College is located at Maryville. The fall term opens Tuesday, September 9, 1930.

Debators Form New S.T.C. Forensic Union

An organization which has developed at S. T. C. as a result of the organization of the new department of public speaking with Mr. Orville C. Miller as head, is the Forensic Union.

The Forensic Union takes its aims from the code of the Oxford and Cambridge Unions, England, and claims as its patrons and first honorary members the three English gentlemen who debated here last fall.

The English debaters who came to S. T. C. were: William John Kenneth Diplock, University College, Oxford; Richard Thomas Dyke Aeland, Balliol

College, Oxford; and Bernard Joseph Maxim Mackenna, New College, Oxford.

The College debaters who took part in the mixed debate with the men from England were: Marvin Shamberger, Wilbur Pettigrew and Glenn Duncan. The other charter members of the Forensic Union, those who were alternates for the Oxford debate, were: Violette Hunter, Clinton Morris and Wilbur Heekin. The secretary-treasurer for the organization was Arrie Ann Freeland, and the publicity man was Clarence Worley.

Bi-monthly meetings are devoted to the study and practice of parliamentary law, extempore speaking, oratory, and the "Oxford" and "Oregon" styles of debating. Students may earn 1.25 semester hours credit by taking part in the activities of the Forensic and Dramatic clubs.

S.T.C. Debators Plan to Meet Cambridge

Tentative arrangements have been made for the S. T. C. debaters to meet a debate team from Cambridge University, England, this year. This will be the second international debate for S. T. C. and will probably occur about the middle of December.

Last year S. T. C. participated in her first international debate and was one of the two teachers Colleges in the United States to meet the Oxford Debaters who came to our country for a debate tour.

Elect Officers

The last summer meeting of Kappa Omicron Phi was held Friday evening, August 1. Interesting plans for the coming school term were discussed and the following officers were elected:

President, Hazel M. Stroeter; vice-president, Reba Puthuff; secretary, Eleanor Nicholas; treasurer, Josephine Sherman.

Education

Out of each 1,000,000 without schooling, only 6 attain distinction.

Out of each 1,000,000 with elementary schooling, 24 attain distinction.

Out of each 1,000,000 with high school education, 622 attain distinction.

Out of each 1,000,000 with college education, 5768 attain distinction.

So it seems that for all their faults, and their faults are many, the schools are a good investment.

College Stands Ready to Serve All Who Come

A Real College Spirit, a Friendly Town. Expert Instruction and Low Expense. Will Be Found Here.

The State of Missouri established the Northwest Missouri State Teachers College more than a fifth of a century ago for the purpose of giving the people of Northwest Missouri the best educational service at the lowest possible cost. One hundred and seventeen acres were then secured; now the College campus and farm comprise more than 200 acres.

Buildings and equipment have been constantly added during the last twenty years to better serve the educational needs of this part of the state. A strong faculty, well trained and widely experienced, has been gathered here by years of careful selection.

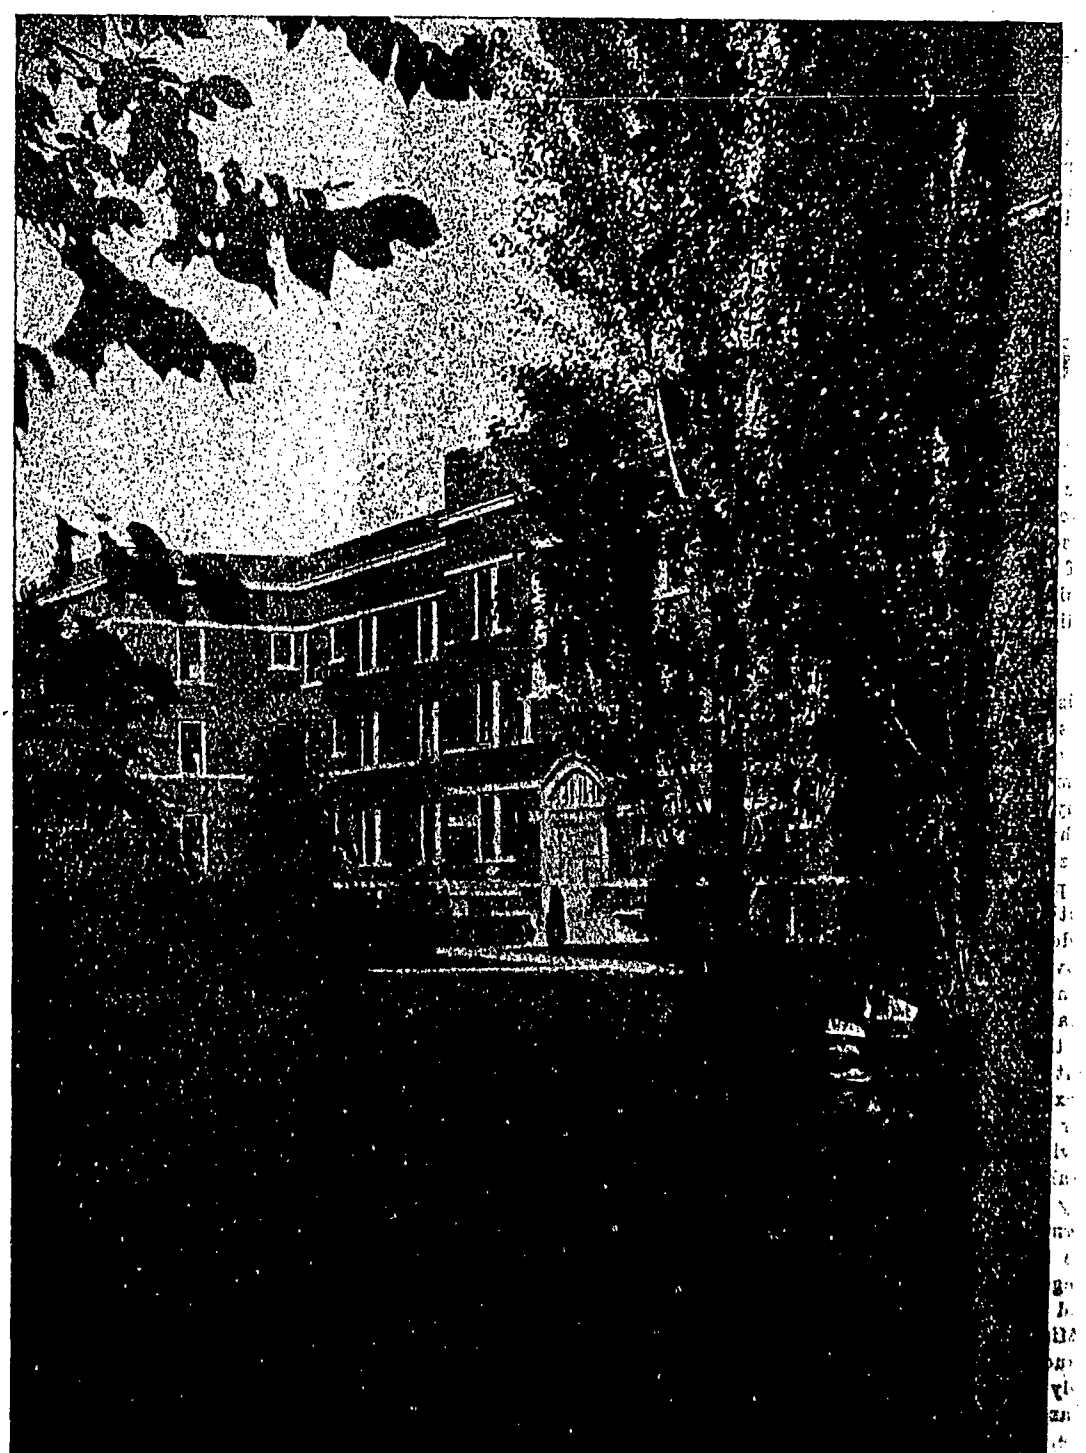

These factors have made possible a high type of educational service which has given this college membership in the North Central Association of Colleges and Secondary Schools, and in the American Association of Teachers Colleges. The school is empowered to award the standard degrees of Bachelor of Arts and Bachelor of Science in Education for four years of college work. The elementary or two-year certificate is granted on the completion of thirty hours and the life certificate is granted on the completion of sixty hours of college work.

Students will find Maryville a clean, friendly town in which to live while attending college. They will have the companionship and fellowship of a sturdy, loyal, hard-working student body. Maryville offers you the contact of good churches, Christian homes, and a wide variety of athletics in a physical education department which produces championship teams. Students will have the fellowship and experience of sincere men and women of the faculty who take a personal interest and pride in their students, particularly in their contacts with freshmen and sophomores in helping them to get successfully started on their college careers. The College offers you this service at a minimum cost in an institution maintained by the state of Missouri.

COLLEGE OATH
"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will never and obey the College laws and do our best to incite a like respect and reverence in others. We will transmit this College to those who come after us, greater, better and more beautiful than it was transmitted to us."

Ready to Serve

(Continued from Page 1)

If students are looking forward to a career in the teaching profession, the College can serve them well in preparing for it. If they are intending to enter a professional school of law, medicine, journalism, or business administration, this institution can profitably serve them in this pre-professional work, as it is now serving many other such students. The College has strong departments of manual, industrial, and fine arts, commerce, agriculture, public speaking, physical education, music, languages, physical and social sciences.

The expense of attending college here is exceptionally low. As it is a state institution there is no tuition, only an incidental fee of \$15 per quarter which covers incidental expense of enrollment and coupons for the College paper, annual, hospitalization, locker, and most of the important athletic and entertainment events given during the term. All textbooks may be used for the year for \$1.00. Women students may find living expenses very low at Residence Hall. The maximum cost per term for any student need not exceed \$110 per term or \$330 for the school year of nine months.

This College belongs to Northwest Missouri and stands ready to serve Northwest Missourians and others who come. The success of this institution depends solely upon its ability to make better men and women, better citizens for the state, and better teachers for the citizenry of tomorrow. A catalog,

which will explain in full any angle of college life or work in which students or other smay be interested will be sent upon request. Those interested may have a College catalog by writing to Uel W. Lamkin, President of the College.

The following are the chairmen of the several departments for the fall of 1930:

Agriculture—Mr. Roy A. Kinnaird.
Biology—Mr. W. T. Garrett.
Chemistry—Mr. M. W. Wilson.
Commerce—Mr. E. W. Mounce.

Students interested may write to the above named heads of departments.

Education Department

The Department of Education at the College has for its purpose the training of people for the various special fields of education. Training is offered for those who are interested in high school, junior high school, intermediate, primary and kindergarten teaching.

The College also has facilities off campus and on campus in its training schools for preparing teachers.

The department is active in placing students not only in the local district but also throughout the several states.

Students Complete Work for Certificates

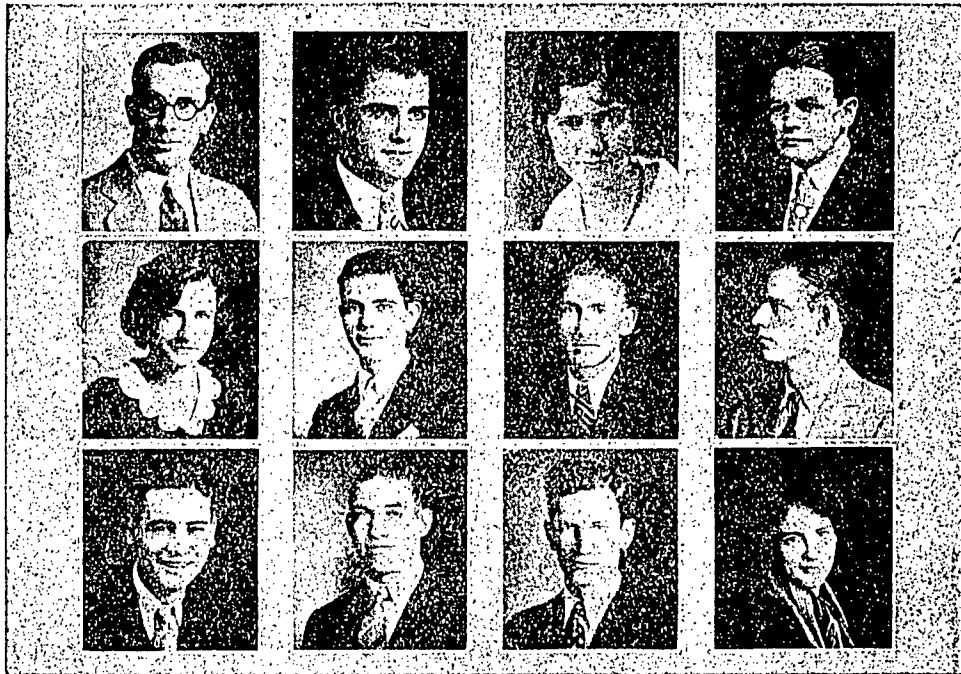

Forty-nine students at the College this summer are applicants for the B. S. degree, three for the A. B. degree, seventy-three for the Life Diploma, and eighty-two for the 30-hour certificate.

There are no special graduation exercises at the close of the summer

quarter. Many students who finish their work at the close of the summer term take part in the graduation exercises in the spring.

Applicants for degrees and certificates from the College at the end of the summer quarter have been recommended by the committee on certification to receive them provided their work is satisfactory by the close of the term on August 6.

Those who will receive the B. S. Degree provided they meet the requirements follow: Laura Bolt, Maryville; Hazel Constance Carr, Maryville; Margaret Connor, St. Louis; Allen A. Donk, Osborn; Sara Donaldson, Maryville; Earl C. Duse, Maysville; Ruth Florea, Hopkins; Grace Marie Gallatin, Chula; Vance E. Geiger, Redding, Iowa; Irma Geyer, Skidmore; Oren L. Hall, Hopkins; G. W. Keefe, Maryville; Katherine Kibbe, Grant City; Alberta Kunkel, Maitland; Mary Wray Kurtz, Maryville; Josephine Lautenbach.
Louise Lowe, Albany; Frank C.

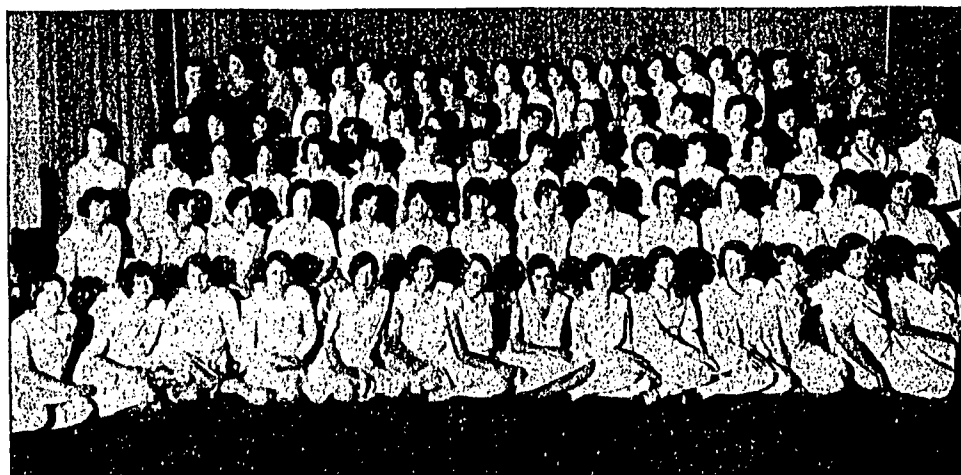

FORENSICS—Forensic teams of the College have, this year, engaged in an international and a radio debate, debated at home with schools from three states, and traveled twenty-seven hundred miles through seven states, meeting twenty-two schools in a total of forty-five debate, oratorical, or extempore contests.

Mr. Duncan and Mr. Shamberger represented the College in oratory and extempore, respectively, while Mr. Pettigrew and Mr. Shamberger, Mr. Morris, and Mr. Stalling composed the debate teams when Maryville took third in the Missouri State Teachers' Colleges forensic tournament. Maryville will be host to this tournament next year.

Mr. Miller, Instructor; Duncan, Hunter, Pettigrew, Dawson, Hall, Shamberger, Stalling, Heekin, Morris, Rybolt, Freeland.

S. T. C. GIRLS' GLEE CLUB, 1929-'30.

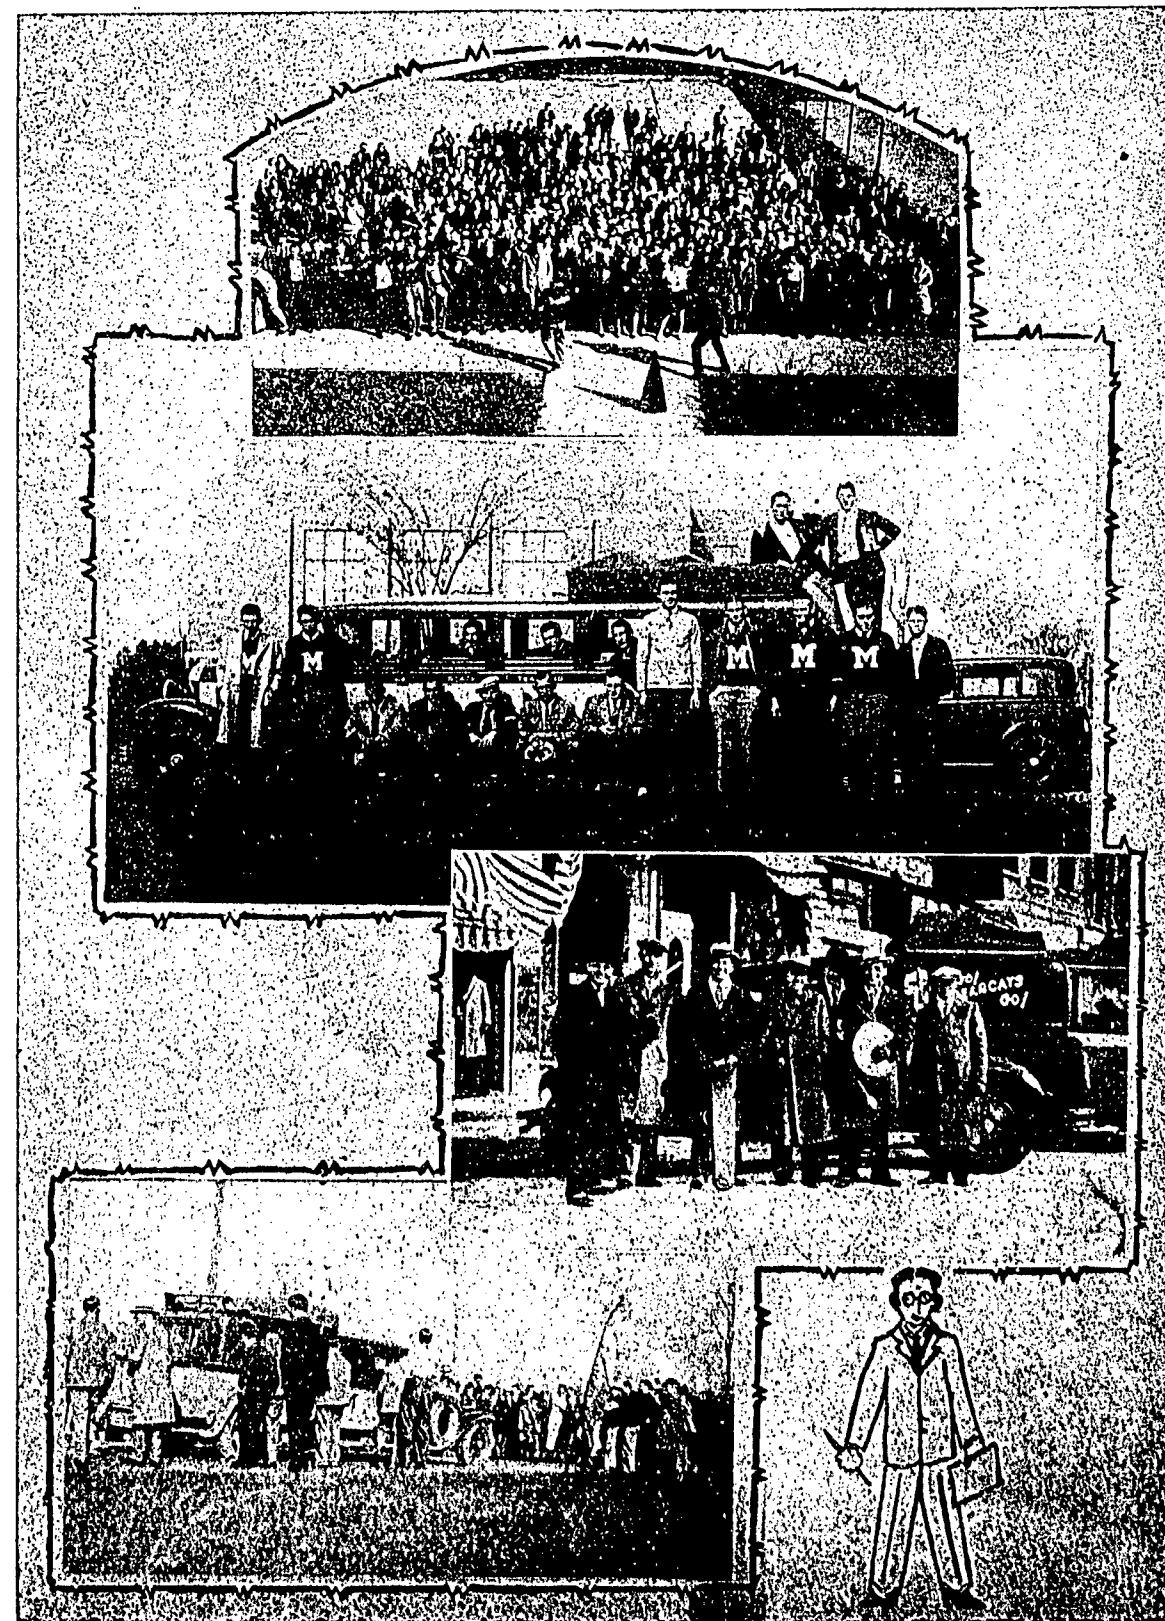

Y. W. C. A.—The Young Women's Christian Association, which is one of the largest and oldest organizations on the campus, is a member of the world-wide association. The Y. W. C. A. entertained during the year for three distinguished guests: Miss Fern Babcock, the Southwestern Regional Y. W. Secretary; Miss Fortha Polmy, a Turkish student at Park College, who came in connection with a World Fellowship project; and Miss Margaret Reed, from London, who spent two days on the campus, speaking on world problems, especially those of present-day India.

Other activities of the Y. W. C. A. have included a Big Sister party, the packing of a Christmas box for the Welfare Board, and the organization of the Girl Reserves in the College High School.

CAMPUS COMEDIES—Each year at the College all of the different student organizations contribute a stunt for a big show and compete for prizes. Above is shown the winners for 1929-'30. The stunt represented by the upper picture in this group won first prize on being the most characteristic of an organization. It was presented by the primary council, an organization of students interested in primary teaching. The stunt represented here by the center picture won first prize for being the most artistic stunt. It was given by the dramatics club of the College. The stunt represented here in the lower picture won first prize for being the funniest presentation. The Sigma Tau Gamma, boys social fraternity, carried off the honors here.

TRACK—The 1930 track team had a successful season, under the guidance of Coach E. A. Davis and Captain Cecil Smith. The Bearents opened the 1930 season by winning the Western A. A. U. indoor track and field meet, held at St. Louis Saturday, March 22. Some eighteen teams participated in the meet.

The next meet was held at the University of Missouri, all colleges in the State being entered, and again Maryville succeeded in carrying away first place honors, thanks to the brilliant performance of "Twister" Smith. Smith won first in the 60-yard dash and first in the 60-yard high hurdles. The track team continued with a string of victories throughout the 1930 season.

Front row—Daniels, Curl, Littell, Kelley, Nickerson, Hindman, Johnson. Second row—Larson, Bruce, Culp, Smith, Stalup, King, Borchers, Groom, Wilson. Third row—Coach Davis, Hodgkinson, Daniels, Keever, Search, Seeley, Ruth, Burns, Coach Iba. Fourth row—C. Iba, Duse, Woolsey, Mitzel, Bricken, Fischer.

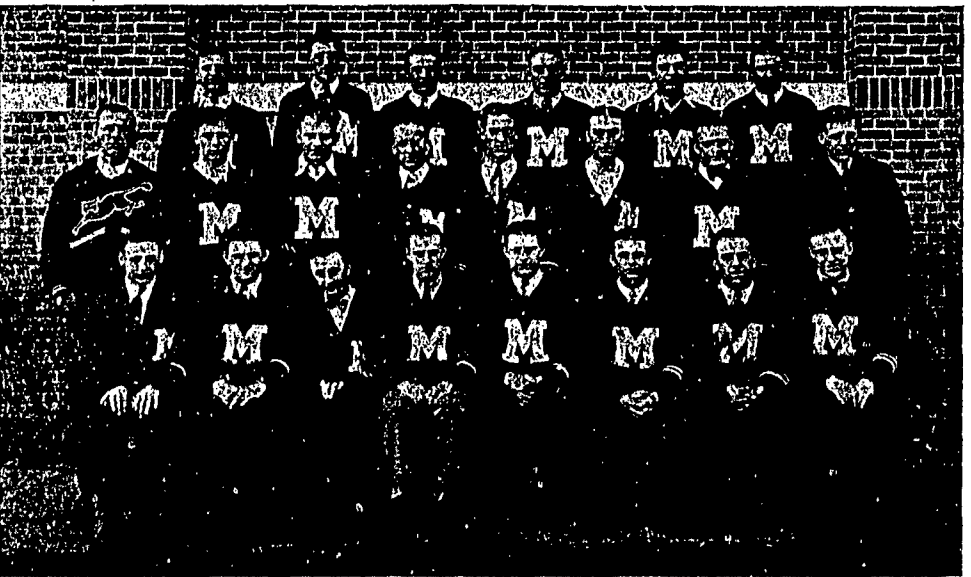

THE CHEER LEADERS—Kenneth Greeson, George Adams and Marion "Gus" Williams, the yell leaders, are certainly to blame for some of the Bearent victories. Yea, Rah, Team!

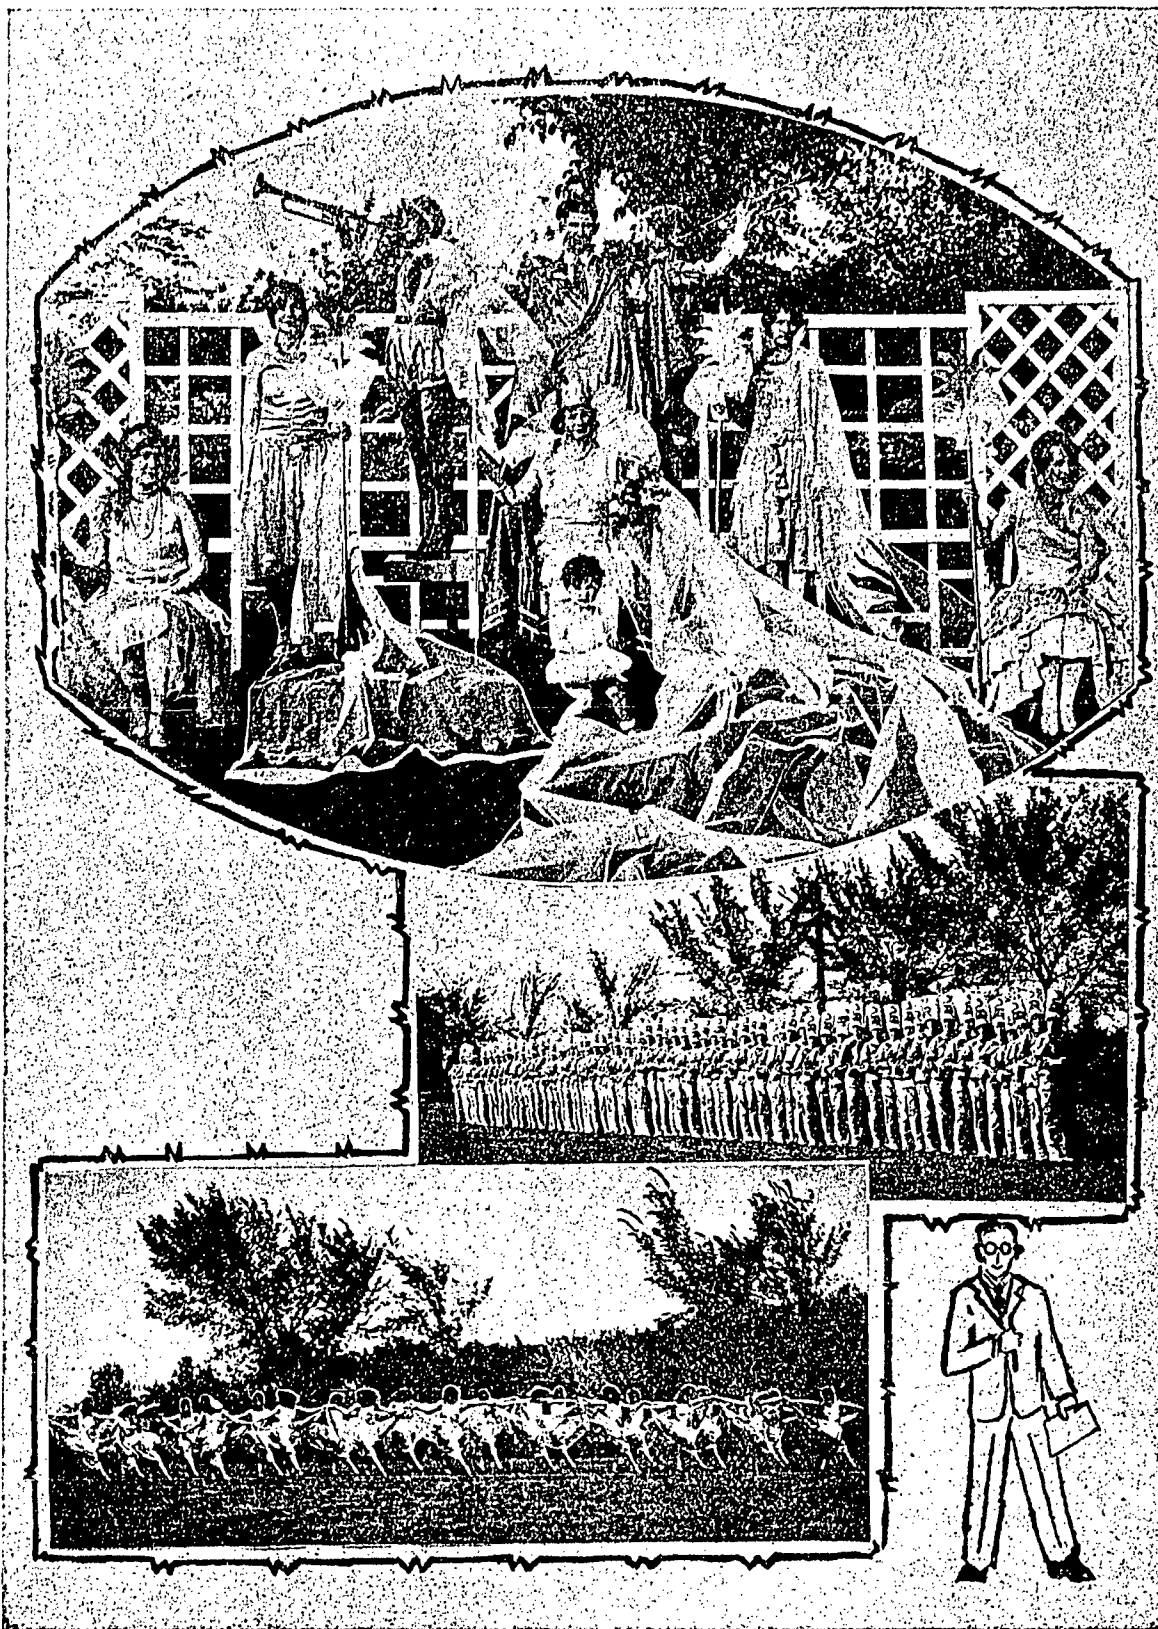

THE GROWLERS—The Growlers this year tried to carry out the purpose they set last year, that of instilling into each student that true M. S. T. C. spirit of "Fight 'em Bearents." They were at every game and yelled as only an organization that has true college spirit could yell. They are planning great things for this year.

Mr. U. G. Whiffen, head of the Industrial Arts Department faculty, is the sponsor for the snappy organization.

BEARCATS IN ACTION

FOOTBALL—The 1929 Bearcat football team, headed by Captain Cecil "Twister" Smith and Earl Duse, was a winning aggregation.

Despite the fact that the team was made up of almost entirely new material, under the able direction of coaches Davis and Iba, the team won three games, tied three games and lost but two.

While the loss of the captains through graduation will be keenly felt, nineteen letter men are to return for this season: H. Fischer, Wilbur Staleup, Frank Daniels, Robert Hodge, Ted Hodgkinson, Mack Ruth, James Seeley, Ryland Milner, Glenn Marr, Walter Dowell, P. A. Sillers, Frank Moore, MacDonald Egdorf, Victor Mahood, Oren Hall, George Hall, Earl Barnes, Carol Russell, Robert Wehtfall, L. N. Bricken, Raymond Mitzell, Nolan Bruce, Lee Dunham and Robert Dowell.

H. Fischer, Mack Ruth, James Seeley, Robert Hodge, P. A. Sillers and John Smith were placed on All-Star picked teams last year.

The Stroller

By P. P. P.

Dear Prospective Student:

This is the first letter which you will ever receive from the Stroller at M. S. T. C. You will please note that you were addressed as a prospective student, not prosperous student, because in these hard times it might not be appropriate to address you as prosperous.

You may have heard about the Stroller from some of your big brothers or sisters who have travelled "the long walk" or sat on the "lover's bench" under the Birches, out in front of the main building, here at the College. Oh, they naturally wouldn't say anything about sitting there themselves, but they might have seen "some other two" there you know.

Seriously, the Stroller will be glad to see you come to College. If the band doesn't get out to the station to greet you, if you come by train, why maybe there will be a car or bus or some fellows from the College there to meet you, with a big white letter "M" on their sweaters. And if the band doesn't escort you in this fall, why perhaps it will sometime when you and some others come dragging in the championship M. I. A. A. banner and the bacon, or rather the pigskin. And if they don't play for you then, why you can just join the band and learn to play for yourself.

Really there is an excellent music department here. Some students who came and stayed to finish a degree have made more money this first year teaching, than it cost them for the entire course.

Things have been running along pretty smoothly here this summer; everybody seems to have had a swell time, plenty of hard work and hot weather. There have been several speakers from Washington, D. C. here and some real programs at times. The faculty has about worn out the golf links, and the students have mistreated the tennis courts and the swimming pool terribly. No joking, there have been some real tennis matches played off in the tournament for both men and women. The playground baseball and the horseshoe pitching tournaments have not ended as yet, but Harrison County girls seem to be leading in the playground baseball.

The College girls have been diving right off the sides of the swimming pool into the cool water. The Stroller accidentally learned from one of the girls the reason why the water in the pool is so cold. V. F. said usually you will see Frost on the side of the pool. Now in order that you will understand, the Stroller will explain that Jack Frost is a husky red-headed young man who is a student here at the College.

Everybody here will be glad to see you come. Mr. Wells is all set to keep good order in the library so that you may study in peace. You'll know him when you come, because he is generally conceded to be the best looking man on the faculty. You will notice the Stroller said conceded not conceded. Mr. Wells isn't conceded. He really is a nice man you know, sorta human and you will like him. Some of the other teachers are human also, but if they don't speak to you at first when they meet you in the halls why don't worry. Sooner or later they will have to speak to you, if you don't study hard, when they call you in for a conference, or when you seek them to know how bad you flunked on an Exam.

Miss Dykes, acting head of the English department, will soon be leaving for England. She says that she isn't going to learn how to be aristocratic with her English or how to spend a line, but she is going on account of the libraries and other equipment for study, etc. Don't worry about that though for she will be back for your sophomore year. Miss Anna M. Painter, head of the department, will be back from Yale with a Ph. D. She will not only be able to teach you ordinary English, but if she can't give you the literary low-down on Yale's football aggregation she no doubt will be able to inculcate into some of her courses the good old Yale songs and yells, so you will have something to look forward to from the English department. In fact, every de-

partment will have something for you. Mr. E. W. Mounce, head of the Commerce Department, says Miss Dykes may not be able to get into England if she doesn't hurry on account of the retaliation high tariff wall which England is going to raise to compete with the one which the U. S. has just passed. Which all goes to show that you might profit by taking some courses in economics, politics or social science in order to learn just how this tariff may be operating on you and your parents or at least on some classes of people.

Then again in this age of high class wine dealers you should perhaps take a few courses in science such as chemistry, etc.

Mr. Wilson, head of the Department of Chemistry had all this home brew about analyzed for the courts, but now that they are shipping it through the country as French and other foreign juices, with instructions to pull the plug and let stand in the basement for so many days, for such a percent of alcohol, he is having to use new analytical methods. He has been in Chicago this summer working on chemical questions and will no doubt be able to explain at least the chemical end of the business to you this fall.

Miss Anthony, head of the Home Economics Department has been in New York all summer learning new methods of house keeping and cooking. One of the many mottos of the department is "Better Home Equipment."

If you can't learn it in that department you might try the Industrial Arts Department. In this department they have been making furniture all summer and have got it down to such a fine point that about all you have to have to furnish a house, is the house and two trees in the front yard, one of which you can spare for building the furniture.

Anyway all the different and sundry departments are looking for you and will be ready to serve you. All you could do is to come over this fall and look them over and see which one of them you think you would look best in, or rather which one looks the most likely to suit you.

You remember all the fine things which you heard about success and "all that others dare and do, why with patience should not you," also the one about "opportunity trying to make an appointment with you," and "hitching your Ford to a star and if you can keep her running you'll get there?" Of course if you stop and make excuses and forget all those resolutions about coming to College some time why you will probably never reap anything but good intentions. You remember the saying about that also, something about paying, anyway it's connected with hot places and strenuous labor or the like.

Well, the fact of the business is that everybody will be back from the different heavy vacations and will be glad to see you here on registration day, Sep-

tember 9. So come along and if you can't find any one else just hunt up the Stroller and he will be glad to show you around.

Just as a parting thought the Stroller suggests that if you are thinking of going to some college or school where the cost is \$900 a year, why not come here, get the same training and spend but \$300. Put the \$600 out on interest and in a few years time you will have a fortune which would look good to most any one these days.

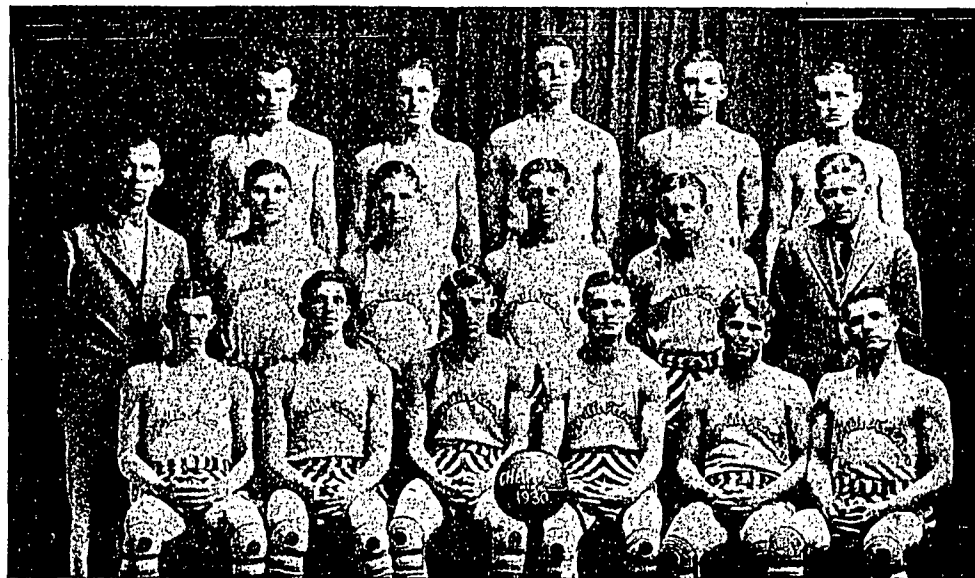

Yours for success at M. S. T. C.
—The Stroller.

Commerce Department

The department of commerce and business administration of the College has for its purpose the training of commercial teachers and the preparing of young men and women for the business world.

The department offers three majors and three minors. One major trains students for high school commerce teaching, another major trains for the business world, and the third is for those interested in secretarial work.

The head of the department is Mr. E. W. Mounce, who is a member of the Missouri Bar and who holds the degrees of A. B., B. S., M. S., and L. L. B. from the University of Missouri and Kansas. The other members of the department are Miss Minnie B. James, who handles the shorthand and typewriting, and Mr. F. W. Salvason.

CHAMPION BEARCAT BASKETBALL SQUAD—Overcoming all of the handicaps brought on by the graduation of many of the mainstays of the 1928-1929 championship team and the inauguration of a new coach, the Bearcats romped through the 1929-1930 basketball season to roll up the most impressive record of any middle-western quintet. Thirty-one teams, representing the picked quintets of five states, fell before the sustained drive of the Bearcats.

The cage title of the Missouri Intercollegiate Athletic Association, which the Bearcats won last season, was defended in a most rousing manner.

Not satisfied with an undefeated M. I. A. A. championship the Bearcats sought additional laurels in foreign fields and journeyed to Winfield, Kansas, where they de-throned Southwestern College as champion at the invitational cage tournament there.

Outstanding teams from Missouri, Kansas, Iowa, Nebraska and Oklahoma took part in the tournament, but met with the same doom that befell Bearcat opponents during the M. I. A. A. campaign.

While the loss, through graduation, of Captain Howard Iba and Riley Davidson will be keenly felt, ten lettermen are to return next season to carry the Green and White on to continued victory and success.

Captain Howard Iba, Jack McCracken, H. Fischer, and Charles Finley were frequently placed by critics on all-star teams.

GREEN AND WHITE PEPPERS

Top row—McDaniel, Marsh, Adams, McCarty, Walker, Geist, Conn, Sutton. Second row—Heffley, Bruce, Wray, Oliphant, Moore, Wray, Bogard, Evans. Third row—Trusty, Cox, Clary, Houghton, Jacobs, Shelby, Shartzer. Not in picture, Maude Ella LaMar, pianist.

THE COLLEGE GYMNASIUM—This building houses a marvelous swimming pool and has one of the best basketball courts in the State. There are also physical education class rooms, and offices. The "M" Club recently has furnished one large room here for a lounging and rest room for "M" men in school and for those "M" men who come back for the games and for other special occasions at the College.
